

American Saddlebred Horse Association

Declaration of Intent to Compete in Bluegrass Region (ASHA Region 8 -Indiana, Michigan, Kentucky and Ohio) exclusively for purposes of the Regional Championship

Beginning in 2008 Horses must compete and receive a ribbon (1 through 8) in three separate competitions within the region, in the same section within the Saddlebred division, to qualify for the Regional Championship Class in that region's championship event, in the qualifying period.

The qualifying period will be from the entry due date for the Regional Championship horse show in one year to the entry due date for the Regional Championship show in the next year.

Qualifying shows need not be USEF-licensed but must be recorded in the ASHA database of competitions, and ASHA must receive official results; Regional Championship competitions themselves must be USEF-licensed.

In the case of a sale of a horse, all qualifying records will travel with the horse (Equitation not included)

Previous qualifying requirements for regional championship competitions are replaced by the above qualifying requirements.

In the event of a horse qualifying in more than one region, only one region may be declared by the owner (by August 15) for Regional Championship competition. Horse/riders may compete for only one Regional Championship title in a given calendar year, even if exhibiting at more than one such competition.
